

WELL EDITED CO. MOVING CHECKLIST

■ **Plan it.** Make a plan with all of your to do's and create a shopping list, if needed.

■ **Logistics.** Reserve moving truck, movers or gather your team of helpers. Transfer and/or setup utility accounts, make a list of change of addresses and forward mail.

■ **Borrow first.** Before you rush to buy moving supplies ask around, you'd be surprised at what people have laying around their garage.

■ **Purge.** This is the perfect time to go through all of your items before packing them. Donate, sell or dispose of items you don't love, aren't using or aren't functional.

■ **Start early.** Slowly start packing up items you don't need 2-3 weeks before your move date and place the boxes in a designated space.

■ **Stay organized.** Pack items by space so they are easy to place in your new space. Pack them well and label the boxes by room and don't forget to mark fragile (if applicable).

■ **Prep your new space.** Do a deep cleaning before setting up. If you can clean before moving anything, even better!

■ **Unpack.** Space plan and unpack room by room. Categorize, organize, label, hang, fold, etc. and enjoy your fresh clean slate!
